CORE SKILLS

Technical: System Administration · Network Troubleshooting · Wazuh Configuration · Security Monitoring · Server Maintenance · Patch Management · Backup & Recovery · ISO Compliance · Endpoint Security · IT Onboarding · SIEM · Security Operations
Soft Skills: Teamwork · Communication · Problem Solving · Time Management · Adaptability · Analytical Thinking · Continuous Learning

PROJECTS

AI-Driven SIEM Integration

• Built a centralized security system using Wazuh and the Kibana Stack to monitor logs and detect threats in real-time. • Integrated AI/Machine Learning to differentiate between genuine threats and false alarms. • Set up automated vulnerability scanning tools and ensured network compliance with security policies. • Created visual dashboards in Kibana to display live security data and high-risk alerts.
Technologies: Wazuh, Elasticsearch, Kibana, ChatGPT, Linux

E-Commerce Website – Happy Toys

• Developed a full-featured e-commerce website for an online toy store using WordPress.
Technologies: HTML, CSS, Bootstrap, JavaScript, WordPress

Web-Based Applications

• Developed a Budget App for calculating income and expenses. • Developed a Task Diary for task management.
Technologies: HTML, CSS, Bootstrap, Laravel, PHP

Desktop Application – Maths Cal

• Developed a desktop application for solving mathematical problems.
Technologies: C#

VOLUNTEER EXPERIENCE

• Infotel ICT Expo 2019 – Organized by FITIS at BMICH
