Hashnative Software Engineering, Colombo 05 | *December 2019 – June 2020*

- Collaborated on internal and client projects as a developer and designer.
- Designed templates and contributed to mobile, desktop, and web application development.
- Worked with PHP, Java, Laravel, Flutter, and WordPress frameworks.

Volunteer

Infotel ICT Expo 2019 Organized by FITIS at BMICH

Education

- | | | |
|-------------|---|--|
| 2024 - 2025 | - | BSc (Hons) Computer Networks and Security , Wrexham University |
| 2018 - 2019 | - | Qualifi Level 5 Diploma in Cyber Security, Winsys City Campus |
| 2018 | - | G.C.E. Advanced Level – Arts Stream, Zahira College, Colombo |
| 2016 | - | Certificate in Computer Hardware Technology, JMC Institute |
| 2015 | - | G.C.E. Ordinary Level (2015), Zahira College, Colombo |

Certifications

- Certified Red Team Operations Management (CRTOM)
- Certified Phishing Prevention Specialist (CPPS)
- Cybersecurity Career Starter Certification (CCSC)
- Networking Academy Learn-A-Thon (Network Security) | Cisco | 2020
- CompTIA Security+ (Reading)
- ISC2 Certified Cybersecurity (Reading)
- Certified Ethical Hacker (Reading)

Core Skills

Technical Skills:

System Administration | Network Troubleshooting | Wazuh Configuration | Security Monitoring | Server Maintenance | Patch Management | Backup & Recovery | ISO Compliance | Endpoint Security | IT Onboarding | SIEM | Security Operations

Soft Skills:

Teamwork | Communication | Problem Solving | Time Management | Adaptability | Analytical Thinking | Continuous Learning

Personal Projects

AI - SIEM Integration

Implemented AI-Driven SIEM to Enhance Security Using Wazuh

- Built a central security system using Wazuh and the Kibana Stack to monitor logs and detect hackers in real-time.
- Integrated AI/Machine Learning to help the system tell the difference between real threats and false alarms.
- Set up automated tools to scan for vulnerabilities and ensure the network follows safety rules.
- Created visual dashboards in Kibana to show live security data and high-risk alerts clearly.

Technologies used : Wazuh, Elasticsearch, Kibana, ChatGPT, Linux.

E-commerce Website

Developed a (Happy Toys) e-commerce website for online toy stores using Wordpress.

Technologies used : HTML, CSS, Bootstrap, Javascript

Web Based Applications

Developed a (Budget App) web based application for calculating income and expenses.

Developed a (Task Diary) web based application for task management

Technologies used : HTML, CSS, Bootstrap, Laravel, PHP

Desktop Applications

Developed a (Maths Cal) desktop application for solving simple maths problems.

Technologies used : C#
